OCR THREE STEPS OF BEAMS

Product number: no-116

Dimensions: W155 x D335 x H130 cm

Material: Steel

Corrosion class: C4 - Rust and corrosion-proofed, powder coated

Colour: Choose from 180 UV-stable RAL colours

Description:

OCR Three Steps of Beams consists of a series of three obstacles with heights ranging from 0.72 to 1.3 m metres. The six vertical posts are made of steel tubes with a diameter of 11.4 cm and a 90-degree bend at the top. Between the six vertical posts are three electropolished stainless steel tubes that can withstand the repeated wear and tear of frequent use in all weathers and by different footwear. To ensure a long life and environmentally friendly finish, the two vertical posts are e-painted and then powder coated. The stainless steel elements are electropolished.
