### Description:

For minimum maintenance, the equipment has no moving parts or bolted joints, screws or similar. The tube thickness of 3.8 cm ensures that both women and men can get a firm grip. The equipment is fitted with a pull-up bar at one end and a rib at the opposite end, which extends as a horizontal rib connection for brachiation between the upper frames. It's for training with own body weight, certified according to EN:16630 and ASTM F3101-15, and its elegant and simple design makes it blend in easily with the surrounding landscape.
